

● High-Capacity Railcars

Specifications

- 170,000 lbs. net weight carrying capacity
- 60' length internal dimension
- 68' 1" overall length
- Inside width 9' 2"

Equipment Features

- MHFX Rail Reporting Marks
- Designed for 55-gallon and other sized steel drums and other packaged materials
- Engineered securement system prevents shifting or damage during transport of materials
- If shipping hazardous materials, chemicals or wastes, the cars are equipped with spill collection pans which collect the material, should a leak occur during transport
- Doubled-walled/heavy-duty railcar
- Private railcar configuration that is not available from the railroads
- Undercushioned for freight damage prevention

Equipment Advantages

- Up to 340 55-gallon drums per boxcar can be transported safely and securely
- Economic, cost-effective rail transportation system
- Efficient loading and unloading system
- Approximately a 4-to-1 ratio over truck transport

Security & Safety

Security seals are available for purchase in various styles that deter unauthorized access. Many safety features are engineered into our equipment, containers and packages and are referenced in the specifications, equipment features and advantages.
